

GANESH SATTU

Data Analyst | SQL Developer | Business Intelligence Analyst

+91 9515611452 | ganeshteja1616@gmail.com | Hyderabad, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, SQL Server, PostgreSQL, MySQL, Power BI, and Advanced Excel. Skilled in data cleaning, data validation, SQL querying, dashboard development, and KPI reporting to deliver actionable business insights. Built end-to-end analytics projects using joins, subqueries, window functions, DAX, and Power BI. Eager to contribute analytical and problem-solving skills as a Data Analyst or SQL Developer.

TECHNICAL SKILLS

Databases: SQL, SQL Server, PostgreSQL, MySQL

SQL Concepts: Joins, Subqueries, CTEs, Window Functions, Views, Aggregations, Data Cleaning, Data Validation

Power BI: DAX, Power Query, Data Modeling, KPI Dashboards, Drill-Through, Slicers

Excel: Pivot Tables, Pivot Charts, VLOOKUP/XLOOKUP, Conditional Formatting, Dashboard Development

Analytics: Exploratory Data Analysis (EDA), Trend Analysis, Data Visualization, Business Reporting, KPI Analysis

Tools: SQL Server Management Studio (SSMS), Git, GitHub, Python (Basics)

PROJECTS

Zepto Inventory Data Analysis | SQL Server, SQL | [GitHub](#)

Objective: Improve inventory visibility through SQL analysis of 5,000+ SKU records.

- Cleaned and validated 5,000+ SKU records by handling missing values and duplicates.
- Developed SQL queries using joins, subqueries, and window functions to analyze inventory trends.
- Identified top-performing categories and low-stock products to support inventory decisions.

Call Centre Performance Analysis | Power BI | [GitHub](#)

Objective: Track call centre performance through an interactive Power BI dashboard.

- Built a Power BI dashboard analyzing 1,000+ call records, business KPIs and performance metrics.
- Developed DAX measures and interactive reports for agent and location-level performance analysis.
- Identified business insights and trends to support operational efficiency and workforce decisions.

Superstore Sales Performance Dashboard | Advance Excel | [GitHub](#)

Objective: Analyze sales performance using an interactive Excel dashboard.

- Built an Excel dashboard using Pivot Tables, Pivot Charts, KPI cards, and dynamic slicers.
- Analyzed sales, profit, and regional performance to identify key business trends and opportunities.
- Created dynamic reports to support data-driven decisions and executive business reporting.

EDUCATION

B.Tech — Computer Science Engineering (Cyber Security)

2021 – 2025

AVN Institute of Engineering and Technology, Hyderabad | CGPA: 7.2

Intermediate (MPC)

2019 – 2021

Sri Gayatri Junior College, Kothapet, Hyderabad | CGPA: 8.9

SSC (10th Grade)

2018 – 2019

Jesus Way International & High School, Ghatkesar, Hyderabad | GPA: 9.2
